QUINTESSENTIALE

Elstead Lighting Group is pleased to introduce our new design-driven brand Quintessentiale.

This brand will sell a wide variety of stylish lighting, many of which feature the designers themselves as part of the branding focus, including Lisa McDennon who has designed product with Hinkley Lighting.

Products from this brand will be sold through carefully chosen partners and selective distribution. Part of this model will include our upcoming B2C platform, [Quintessentiale.com](https://www.quintessentiale.com) where registered and approved trade clients can log on and place orders directly.

See pages 4 - 77

Elstead LIGHTING

The original Elstead Lighting Collection has now become a successful international brand where more than 2,500 products are available to all channels in the 220-240v markets. Here we show 28 new products as well as some family extensions to some of our existing popular ranges.

See pages 78 - 97

Designer's LIGHT BOX™

The Designer's Lightbox brand was launched in 2018 as a unique bricks and mortar only brand to give showrooms and designers a selection of exclusive products not widely visible online for a minimum period of 18 months. We are now adding 29 new introductions to this collection.

This range includes our bespoke shade making service as well as a growing collection of interior, bathroom and exterior fittings. We started making lampshades in the UK from April 2018 and now stock and offer many shade sizes and shapes in more than 200 fabrics. Additionally, we custom make shades either using non-standard materials, different sizes as well as re-covering other shades.

COLLECTION

AN ORIGINAL POINT OF VIEW FROM DESIGNER LISA McDENNON

The Lisa McDennon collection offers an array of styles with a modern organic aesthetic. Drawing from Lisa's inspiration as an artist and designer, each fixture is thoughtfully planned with purposefully chosen materials and finished with impeccable construction. Natural elements, subtle textures and sculptural silhouettes are the unexpected details that elevate each design to a memorable level

AN ARRAY OF MODERN ORGANIC FORMS

About Lisa McDennon

Lisa McDennon founded her Laguna Beach-based interiors firm, Lisa McDennon Design, in 2000. Inspired by the region's beauty, history, and culture, McDennon's distinctive style reinvigorates coastal California design. She works with natural materials, elegant forms, and varied textures to create modern interior that are sophisticated, unexpected, and timeless. With degrees in fine art and interior design, McDennon brings a deep knowledge of art and architecture to all her work, which has been recognised with multiple awards and coverage in USA national publications.

LUDLOW

Ludlow cleverly blends a penchant for industrial features with inspiration drawn from Palladian architecture. Designed around the light source, Ludlow plays with the simple geometry of circles and squares for an ultra-stylish composition. The single pendant incorporates rustic natural elements with the use of a genuine cow-hide strap.

NULA

Nula is a work of art. A juxtaposition of industrial elements and organic influences transmutes simplicity into decadence. Pairing a dense chalk-white exterior with a gleaming, luxe gold interior elicits a dramatic effect. Several designs offer flexibility to customise for unique installations.

REN

This collection draws inspiration from a simple found object, now reinterpreted with a post-modern aesthetic. The striking matte black pods with tantalising interiors of luminous gold cradle a glowing globe of light to create a stunning statement.

SKYE

Mesmerisingly asymmetrical with a mid-century modern flair, Skye showcases a cluster of clear, open globes, each encircled with a slender brass ring. Each opening is off center and the globes fall to different lengths, with Heritage Brass details pulling the look together perfectly. Adjustments are easily made with the cinching ring, also finished in Heritage Brass.

LAGUNA

Imagine a net gently breaking the surface, then slowly emerging with a cascade of water droplets trickling through and shimmering with light. Laguna uses a hand-made open framework design in Brushed Gold as the foundation in this artistic interpretation. Clear glass droplets fall at varying lengths, casting the light. Minimal hanging wires ensure the net itself appears to float, as a candle cluster emits light from within.

INTRODUCING OUR NEW DUAL-LIT TABLE LAMPS

Our Samara and Milne table lamps offers a new direction on portables, fusing a charming range of mouth-blown glass options with a unique dual lit functionality. Its 4 way switch enables you to illuminate the gorgeous glass base as well as the fabric shade. So depending on your mood, you can select from tranquil lighting effects to a more functional output. Completed with UK hand-made lampshades

NB. These mouth blown glass products (p69 - 77), may vary slightly in production size and colour due to the nature of the craft.

Armand is a large range of ceiling fittings suitable for a wide array of interior spaces, in two very contrasting finishes of the edgy aged brass/charcoal or classic polished nickel. Its unique glass shades and angular arms create a bold silhouette and a twist on the classic J arm fitting style.

CORONA

Corona is a versatile glass pendant range that works equally well as a pendant, semi-flush or flush ceiling light. Its frosted side glass panels subtly diffuse the light, and a large opal white glass diffuser helps to create a clean well-illuminated space underneath. Available in two dual-finish options: Museum Bronze/Aged Brass or White/Polished Nickel.
